

Is Consumption Incurable?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lung, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to do the work on my farm. It is the finest medicine ever made."
Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption, I would have died of lung troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at Hodgkinson & Co.'s drug store.

Can't Sleep Nights, the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Did you ever try Acker's English Remedy? It is the best preparation known for all Lung Troubles, sold on a positive guarantee at 10c., 50c.

Helping Yourself.
Whatever stallions are used in your neighborhood will have an influence on the value of the horses in it. If well-bred, there will be more or less of an improvement; if scrubs, the opposite results will be secured. To a considerable extent it is the encouragement they receive that determines which shall remain, and it is for you to determine whether you will help yourself by encouraging the keeping and breeding of well-bred stallions or injuring your own interests and that of your neighbors by breeding your mares to scrubs.

We all know that a well-bred stallion costs more money, that his services are more valuable, that his gets are more profitable, and that every such animal brought into the neighborhood enhances the value, because in his service a gradual improvement can be made in the quality of the horses. More than once men have invested their money and brought good stallions into their neighborhood and have then been obliged to seek some other place simply from the competition of poorly bred stallions. Farmers in order to save a little in the cost of service, knowing at the same time that the stock was inferior, and even willing to acknowledge that the service of the better animal were worth more money, yet they were unable to pay the difference that there must necessarily be in the cost or price of service. The only way to insure the bringing and keeping of good stallions in your neighborhood is to make it a personal matter and help yourself by doing your part towards making the investment profitable. There are plenty of men who admire and love fine horses, but there are few that are willing to invest their money and spend their time for the purpose of improving the quality of their neighbors' horses unless there is a fair prospect of securing a reasonable per cent. of profit, and it is fully as much profit usually to the farmer as to the owner. And if every farmer says: "I can't afford it, I know I can secure better horses, but it costs more and I will breed to the scrub this year," the outcome will be that some other locality will derive the benefit of having a well-bred horse in the neighborhood.

It is the farmer who must economize, who is forced to realize the largest possible profit from his farming operations, that it is necessary to encourage by the use of well-bred stallions. A rich independent farmer can raise any kind of stock he pleases, because the question of profit and loss is not of so much importance to him; but the poor farmer cannot afford to breed or raise any but the class of stock that will give him the largest per cent of profit, and in doing this it is only in exceptional cases that he can afford to breed anything but the best. And especially is this the case with horses, that require so much longer time to mature, and where each year the difference between the low grade and the well-bred becomes greater as they mature.

Merit Will Tell
Was never better demonstrated than when Fryer's Abietine Remedies were awarded diplomas at the late California State Fair at Sacramento, and at Mechanics' Institute at San Francisco. Wm. Pinniger is agent for these celebrated "Abietine Remedies," and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of Dr. Fryer is on each, as none are genuine without it.

Asthma and Phthisis are instantly relieved by taking a few doses of Fryer's Abietine Cough Balsam. (It contains no Opium.) Price, 75 cents. Sold by W. Pinniger. All genuine Abietine preparations bear the fac-simile signature of D. F. Fryer.

Dwelling of Confidence.—There is no article which so richly deserves the entire confidence of the community as Fryer's Abietine Remedies. Those suffering from Asthmatic and Bronchial Diseases, Coughs, and Colds should try them. Price 25 cents.

INFANTILE SKIN DISEASES
Our oldest child, now six years of age, when an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotchy, and malignant. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's skin as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

THOUSANDS OF CHILDREN
Are born into the world every day with some enormous affliction, such as milk crust, scall head, scurf, or dandruff, sure to develop into an agonizing eczema, the itching, burning, and disfigurement of which make life a prolonged torture unless properly treated.
A warm bath with CUTICURA SOAP, an exquisite Skin Beautifier, and a single application of CUTICURA, the Great Skin Cure, with a little CUTICURA RESOLVENT, the New Blood Purifier, are often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.
Hence, no mother who loves her children, who takes pride in their beauty, purity, and health; and in bestowing upon them a child's greatest inheritance—a skin without a blemish, and a body nourished by pure blood—should fail to make trial of the CUTICURA REMEDIES.

Sold everywhere. Price, CUTICURA, 50c; SOAP, 25c; RESOLVENT, 5c. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world.

JOHN S. GILSON,
Real Estate Agent, Reno, Nev.

As good land as there is in Butte County.

JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits.

L. D. FREER,
Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world.

M. BIGGS, JR. Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California.

—Niggs Argus.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better.

JACOB KNUSSICK,
Gridley.

It is all splendid fruit land without irrigation.

WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California.

Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich.

—Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me.

G. K. SMITH,
Banker, Biggs.

On such land as yours, all kinds of fruit do well. A test of 75 of my apple trees showed a yield last year at the rate of 1,000 per acre. There has been not even one failure of my apple crop in 30 years.

PHILIP HEFNER,
Central House.

My orchard is 27 years old, and adjoining your land which is exactly the same as mine. The net average yield per acre, without irrigation, has been not less than \$200 per annum. I have not lost a fruit crop in 27 years from frost or any other cause.

D. STREETER, Biggs.

I know the great capabilities of your place as a fruit ranch. Five years after planting that land in olives would yield fully \$300 per acre in oil, and will increase year after year until its annual yield will exceed \$500.

JOHN C. GRAY, Dist. Atty.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms.—One-third cash; balance in one, two and three years at eight per cent. per annum.

Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars.

OVER THE WIRES.
A Series of Railway Casualties.
The Storms in the Atlantic States Abating.
Pugilistic Talk—Arizona Indians Want Revenge—Mexican Bandits—Etc.
A DAY OF DISASTERS.
The Southern Pacific Railroad Beating the Record.
SAN FRANCISCO, March 16.—A disastrous railroad accident occurred Wednesday night on the main line of the Southern Pacific between Colton and Indio, near a small station called Whitewater, resulting in the death of conductor McGuire and brakeman Van Mater, and the destruction of thirteen freight cars loaded with through freight from New Orleans or Deming for Los Angeles and this city. Meager details of the disaster reached the railroad headquarters on the track. The train passed Whitewater, west-bound, about 10 o'clock. The conductor thought he would be able to reach Cabazon, 8 miles away, and sidetrack his train there before the Atlantic express, east-bound, should be due at that point. The grade between the stations is over 600 feet in eight miles, and when about half-way the train was found to be on the time of the through express. The conductor decided to back down to Whitewater and wait for the passage of the passenger train. While this was being done the accident occurred. The conductor and brakeman, who were in the caboose, were instantly killed. The caboose was turned over and nearly all the train was piled up and over and about it. A fire broke out immediately from the stove in the caboose and soon the track was a burning mass. A flagman was sent out and stopped the express and the news of the disaster was sent as soon as possible to the nearest station.

ANOTHER WRECK.
A collision at Borden, Fresno county, this morning delayed the Los Angeles express and through trains four or five hours. A freight engine was hauling cars about in the yard on the main track when a special freight came in with reckless speed, striking the other engine and doing considerable damage to both. No one was hurt.

A CONDUCTOR INJURED.
TEHACHAPI, March 16.—Conductor Riddell, running special freight north, when on top of the train, was hit with something supposed to be hanging from the roof of tunnel 15, and badly injured. He was found by a brakeman lying insensible on the edge of the car. He was badly cut about the head and was taken to Sumner.

THE STORM BROKEN.
Business Resumed in the Empire State.
PHILADELPHIA, March 16.—Many stories of disasters come from the Delaware breakwater. The latest reports say that 22 persons were drowned or frozen to death. Twenty-eight vessels were driven ashore, and the loss to shipping is estimated at \$500,000. It is estimated that 10,000 telegraph poles are down between New York and Washington. Information from Essex county, New Jersey, says the deaths caused by the blizzard will number at least 25. In the vicinity of Newark, three persons perished Monday.

A GHAUSTLY FEATURE.
NEW YORK, March 16.—One of the saddest features of the storm, aside from the deaths resulting from it, is the number of corpses in this city and Brooklyn awaiting burial. There are in New York to-day 500 dead bodies, which it has been impossible to bury, owing to the storm. Most of these are to be buried in Calvary cemetery. In Brooklyn 150 corpses are lying ready for burial. One undertaker in New York has 18 bodies in his establishment. All the bodies will be buried as soon as the ways to the cemeteries are open.

A GREAT IMPROVEMENT.
The weather this morning is again warm and bright, with a prospect of much thawing. The railroads leading into the city are all moving trains, and business men in New Jersey, Long Island and the upper part of the State reached New York this morning for the first time since Saturday. Some surface cars are running.

THE BETTER ELEMENT OF THE REPUBLICAN PARTY OF SACRAMENTO HAVING ARRESTED THE RING IN ITS COURSE OF MISCONDUCT, IS NOW DISPLAYING THE PROPER PENOLOGICAL SPIRIT BY MAKING REFORM, NOT REVENGE, THE END OF ITS ACTION. IT INVITES ALL THE RANK AND FILE OF THE PARTY TO JOIN IN FUTURE HARMONIOUS ACTION UPON CLEAN LINES OF CONDUCT. SACRAMENTO WILL BE ALL RIGHT NEXT NOVEMBER.

TELEGRAPHIC BRIEVITIES.

—Railroad communication has been made between Denver and the Gulf of Mexico.
—The citizens of Auburn, Cal., will vote on the question of incorporation next week.
—Senator West of Missouri will retire to private life at the expiration of his term of office.
—The confirmation of L. B. Nash, as Associate Justice of the Supreme Court of Washington Territory is announced.

A DAY OF DISASTERS.

The Southern Pacific Railroad Beating the Record.

SAN FRANCISCO, March 16.—A disastrous railroad accident occurred Wednesday night on the main line of the Southern Pacific between Colton and Indio, near a small station called Whitewater, resulting in the death of conductor McGuire and brakeman Van Mater, and the destruction of thirteen freight cars loaded with through freight from New Orleans or Deming for Los Angeles and this city. Meager details of the disaster reached the railroad headquarters on the track. The train passed Whitewater, west-bound, about 10 o'clock. The conductor thought he would be able to reach Cabazon, 8 miles away, and sidetrack his train there before the Atlantic express, east-bound, should be due at that point. The grade between the stations is over 600 feet in eight miles, and when about half-way the train was found to be on the time of the through express. The conductor decided to back down to Whitewater and wait for the passage of the passenger train. While this was being done the accident occurred. The conductor and brakeman, who were in the caboose, were instantly killed. The caboose was turned over and nearly all the train was piled up and over and about it. A fire broke out immediately from the stove in the caboose and soon the track was a burning mass. A flagman was sent out and stopped the express and the news of the disaster was sent as soon as possible to the nearest station.

ANOTHER WRECK.
A collision at Borden, Fresno county, this morning delayed the Los Angeles express and through trains four or five hours. A freight engine was hauling cars about in the yard on the main track when a special freight came in with reckless speed, striking the other engine and doing considerable damage to both. No one was hurt.

A CONDUCTOR INJURED.
TEHACHAPI, March 16.—Conductor Riddell, running special freight north, when on top of the train, was hit with something supposed to be hanging from the roof of tunnel 15, and badly injured. He was found by a brakeman lying insensible on the edge of the car. He was badly cut about the head and was taken to Sumner.

THE STORM BROKEN.

Business Resumed in the Empire State.
PHILADELPHIA, March 16.—Many stories of disasters come from the Delaware breakwater. The latest reports say that 22 persons were drowned or frozen to death. Twenty-eight vessels were driven ashore, and the loss to shipping is estimated at \$500,000. It is estimated that 10,000 telegraph poles are down between New York and Washington. Information from Essex county, New Jersey, says the deaths caused by the blizzard will number at least 25. In the vicinity of Newark, three persons perished Monday.

A GHAUSTLY FEATURE.
NEW YORK, March 16.—One of the saddest features of the storm, aside from the deaths resulting from it, is the number of corpses in this city and Brooklyn awaiting burial. There are in New York to-day 500 dead bodies, which it has been impossible to bury, owing to the storm. Most of these are to be buried in Calvary cemetery. In Brooklyn 150 corpses are lying ready for burial. One undertaker in New York has 18 bodies in his establishment. All the bodies will be buried as soon as the ways to the cemeteries are open.

A GREAT IMPROVEMENT.
The weather this morning is again warm and bright, with a prospect of much thawing. The railroads leading into the city are all moving trains, and business men in New Jersey, Long Island and the upper part of the State reached New York this morning for the first time since Saturday. Some surface cars are running.

SULLIVAN AND MITCHELL.

An Interview with John L. About the Late Contest.

LIVERPOOL, March 16.—Arthur Magnus, with whom Sullivan stepped here, makes public his willingness to match Sullivan for \$25,000 to fight Mitchell again if the latter agrees to fight in a sixteen-foot ring. Magnus is also prepared to bet \$5,000 that Sullivan will knock Mitchell out in forty minutes. Being asked if the publication of these facts was made with his authority, Sullivan said:
"Yes, though at first I did not intend to enter the prize ring again. I would enter, however, under favorable circumstances and outside of France. Nobody was more surprised than I was at the result of the late encounter, and I am not ashamed to say so. Can't say Mitchell ever dropped without being hit, but he fell at the slightest touch. I only got one good whack at him, and that disabled my arm. Another one like it would have settled him. It was no use going on, so I was satisfied to make it a draw. I don't think Mitchell will face me or any one again in a serious fight. He is a better man than I thought. I have received several telegrams from friends in America saying that they still have confidence in me."

EXCITED INDIANS.

They Want to Execute the Man Who Shot Their Policeman.

YUMA, A. T., March 16.—An Indian policeman named Sweetroot was dangerously stabbed through the lung last night upon the reservation by Short, one of two drunken Yumas,

while attempting to arrest them. Sweetroot acted under Chief Miguel's orders, drunkards being punished under the tribe's laws by severe flogging. The wounded Indian is one of Miguel's most trusted officials and very popular. Great excitement is manifested by the tribe, who will surely execute the assailant should Sweetroot die. The Indians claim to have purchased whisky from unprincipled Mexicans residing in Yuma. Warrants were issued and the Mexicans arrested.

MEXICO.

A Fight with the Remnant of the Bernal Bandit Gang.

NOGALES, March 15.—A dispatch dated Culiacan gives an account of the attempted capture of Teodosio Bernal, brother of the dead bandit chief, and others. It says: Last night a special messenger bearing dispatches from the Juez Conciliador of Los Remedios, State of Durango, arrived here. The dispatches state that a party of bandits, seven in number, and headed by Teodosio Bernal, were discovered in the Brazos, and that a troop of cavalry fell upon them, killing an American named Gill, who was with the outlaws, and captured three others who were gravely wounded. A small quantity of arms was captured, and various important papers which belonged to Eracilio Bernal were found in the clothing of the prisoners.

Nevada City Criminal Trials.

NEVADA CITY, March 15.—The jury in the case of the colored boy, Thomas Hicks, tried for grand larceny for stealing a gold watch from the dressing room at the theater some time ago, was discharged this morning, having failed to agree.
The trial of H. W. Colby for the murder of Joseph Girard, near Graniteville, a few months ago, is being heard in the Superior Court to-day. Colby claims that he shot Girard while the latter was setting fire to lumber owned by the Milton Mining Company, for which company Colby was acting as watchman.

Union Pacific Strike.

COUNCIL BLUFFS, March 16.—The Union Pacific engineers who abandoned their engines yesterday are on duty again this morning, and the freight traffic is going on as usual. It is stated that the engineers were last night given to understand that they were not compelled to handle Burlington freight if they did not desire to, and, as a consequence, all cars of that line are apparently being sidetracked in the Union Pacific yards.

An Unusual Occurrence.

Last night witnessed a scene of subdued excitement in railroad circles at the depot. Railroad men gathered together in little knots and in low, earnest voices discussed the late news. Astonishment was indicated on all faces. The news was told to a few "outsiders" and a look of bewilderment was expressed, changing to one of doubt.
"How did it happen?"
"What is the world coming to?"
"Who is responsible for it?"
"It hasn't happened before for months!"
"The conductor will get fired sure!"
"It's a blanked lie!"
"What's happened?" inquired a stranger who had overheard some of the remarks, "big wreck and a whole train of passengers killed?"
"Wreck be blamed. No. 4 is on time to-night."

Stock Dying.

Silver State: Joseph Miller of Pleasant Valley, in the southern part of Humboldt county, reports heavy losses of stock in that section last winter. He says cattle are yet dying down that way, in consequence of the range being overstocked.

Great Saving in our Prices.

Nothing has created so much talk as Brenner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$20.00 bedroom suite.

One More Unfortunate.

John Hernandez, a Russian, who was recently discharged from the county jail, where he had been incarcerated for some time for the alleged burglary of the Theater saloon, the charge being ignored by the late Grand Jury, was found dead in a room at the French Hotel yesterday afternoon. To-day an inquest was held, and the Coroner's jury rendered a verdict that the deceased came to his death by means to them unknown.

Suicide by poison is suspected, but it is claimed that the stomach would have to be sent to San Francisco for analysis, as there is not a local chemist here capable of making a test of that nature in a scientific manner. Coroner Brown is authority for the statement, but recent events have proved that such is not the case. Owing to the poverty-stricken (?) condition of the county treasury it is extremely probable that the secret of Hernandez's death will be buried with him.

ON GUARD!

THE REPUBLICANS READY FOR THE AFFRAY.

Winemucca Will Have the Convention—Washoe County Gains a Delegate—The Test.

The following account of the meeting of the Republican State Central Committee, held in Virginia City yesterday, is taken from to-day's *Enterprise*:

The Republican State Central Committee met at Exempt Firemen's Hall yesterday afternoon at 1 o'clock. Colonel E. D. Boyle, Chairman of the Committee, in the chair, Governor C. C. Stevenson occupied a seat beside the Chairman.

Colonel F. C. Lord, Secretary of the Committee, read the roll-call, and 32 of the 35 answered to their names personally or by proxy. The meeting was harmonious throughout, members speaking their opinions frankly and plainly, and reason and sound judgment swayed the result. This fact was fully exemplified when Winemucca put in a claim for the delegates to the National Convention, and it had not been held there for fourteen years, and all other claims were immediately withdrawn.

A motion to have present representatives of a county cast the full vote of such county was carried. It was moved and carried to hold but one convention.

Turritin of Humboldt moved to hold the convention at Winemucca on the 15th day of May, for the purpose of nominating one member of Congress, one Supreme Judge, three State Regents and delegates to the National Republican Convention and their alternates, and for such other business as may come before the meeting. Mr. Turritin said Winemucca had not had a State Convention in 14 years, and that every preparation would be made to properly entertain all the delegates who would attend.

Frank Bell of Washoe thereupon waived all claims for Washoe, and hoped the vote for Winemucca would be unanimous. It was.

The 28th of April was set for the holding of the primaries, which date will give all delegates ample opportunity to attend, and the date accords with the call of the National Committee.

A proposition to make a new apportionment of delegates upon the basis of the vote received by Wm. Woodburn for Congress was ably discussed by Sam. Wright, Sam. Davis and Evan Williams of Ormsby, Turritin of Humboldt, Campbell of Esmeralda, Wallace of Eureka, Wardell of Storey and Bell of Washoe. It was claimed on one side that it would be more satisfactory to take the apportionment of two years ago, while the other side claimed such apportionment would work an injustice to Humboldt and Washoe counties particularly and other counties that had lost in population since the last election. Those favoring the adoption of the basis of apportionment made two years ago won the day, but immediately thereafter Wallace of Eureka moved to take one delegate from Eureka and give it to Washoe, which was done.

The call of the National Committee was adopted. The words quoted near the bottom of this paragraph were inserted by a sub-committee consisting of F. C. Lord, Sam. Wright and J. M. Campbell, appointed by the General Committee for the purpose:

The Republican electors in this State voters, without regard to the past political affiliations, difference of action, who believe in the American principle of a protective tariff for the defense and development of home industries and the valuation of home labor, who would reduce the national taxes and prevent the accumulation of surplus in the Treasury, in harmony with this principle who are opposed to the present, now motioned, openly avowed than ever before, to establish a policy which would strike down American labor to the level of the underpaid and oppressed workers of foreign lands; who favor naval and coast defenses, which will enable the United States to conduct international negotiations with self-respect; who gratefully cherish the defenders of our country; who condemn and resent continued and unjust exclusion of rapidly growing Territories, which have an indisputable title to admission to the sisterhood of States; who favor free schools and popular education, a free and honest ballot and a fair count; the protection of every citizen of the United States in his legal rights at home and abroad; a foreign policy that shall extend our trade and commerce to every land and clime and properly support the dignity of the nation, and the promotion of friendly and harmonious relations and intercourse between all the States, "and in favor of the absolute exclusion of all Asiatics, paupers, insane, criminals and persons known as Communists, Nihilists or Anarchists and limiting all further immigration, and a revision of our naturalization and land laws, the excessive liberty of which causes the undesirable addition to our surplus labor," are cordially invited to unite under this call in the formation of a national ticket.

THE TEST.

The following, upon motion, was the test adopted to govern voting at the primaries to be held by the Republican party: "I am a citizen of this State, and will support the nominees of the Republican party."

A Minstrel Jubilee.

Haverly's minstrels are billed to appear at the Nevada theater next Wednesday evening, and the box-sheet for reserved seats is now open. On account of the expenses of bringing the great combination here \$1.25 will be charged for reserved seats. The general admission price will be \$1.

The company contains fifty artists, each one a star. Two full concert bands are included in the equipment and the entertainment provided is a huge minstrel jubilee in contrast with ordinary shows in that line. The fact that Haverly's name is coupled with the deceased name is evidence that it is possessed of phenomenal talent.

Transactions in the matrimonial market of Reno are few and far between. Either the young men are too bashful to toe the mark, or the girls are looking for higher game. The leap year party will probably stir matters up a bit, and then the young gallants had better take to the woods.

Boys, Take Heed!

There are a few boys in Reno who are old enough to know better, who congregate on the streets and make vulgar remarks when young ladies have the temerity to pass them. The boys who commit such ungentlemanly and indecent acts are not strangers in the community. They have respectable parents who would blush to hear of their sons being guilty of such conduct. The GAZETTE has spoken of this several times before, but it seems without effect. If the practice is continued in the names of the guilty parties will be published so that all may know who the culprits are. This means business.

He Was a Commissioner.

The Adventists' revival meetings have been discontinued. In connection therewith a good story is told of a well-known county official who attended one of the meetings last week. A worker in the vineyard of the Lord approached him after a very eloquent exhortation, and placing his hand on his shoulder, asked, pleadingly, "Are you a Christian?" Without a moment's hesitation, he blurted out: "Yes, I am a County Commissioner!" The worker sadly shook his head, raised his hands heavenward, as if in prayer, and silently took her seat in the choir of the elect.

THE CASE OF CHODELOT.

A Plain Statement Made Without Prejudice or Favor.

It reports be true which have come to the hearing of a GAZETTE reporter, the death of Godfrey Chodelot calls for more than passing mention, and in the interest of humanity, if for nothing more, publicity should be given to the facts reported. Godfrey Chodelot has for many years past been a resident of Reno, during which time he has been known as a hard-working, frugal, and peaceful citizen.

Contrary to the belief expressed by some of his acquaintances here, he did not possess much property, and the rumor that his daughter and her husband, A. Nadon, a blacksmith and wagon-maker doing business on Fourth street, had obtained control of certain property belonging to him is known to be incorrect. The records show that he at one time was the owner of property on Third street, near West, but a deed recorded proves that he transferred it in 1885 to his daughter, the consideration named being \$1,400, out of which amount a certain mortgage was to be paid.

According to the reports, which bear on their face the imprint of truth, as the days of his usefulness passed Chodelot was treated with coldness and neglect by his relatives until the old man became heart-broken. His troubles he had confided to the residents of Reno, and in relating them, it is said, he has been unable to control his emotion, frequently bursting into tears. Finally, the trouble culminated in the poor old man accidentally or suicidally (facts go to prove that the latter supposition would be the correct theory) fell under the wheels of the east-bound overland train last Sunday morning, and received injuries which necessitated amputation of the right arm. That member was fearfully crushed and common humanity would have dictated to the great surgeon who informed that Zimmer had been employed. Nadon also said, in response to an inquiry why competent surgical aid was not summoned, "What's the use; he's bound to die; if they take his arm off it will kill him, and if they don't he'll die anyway. We can't do anything for him."

The reply of the reporter to this matter of fact and, to people of a sensitive nature, cold-blooded statement, it will not be necessary to repeat here. It was effective, though, for the same day Dr. Dawson was summoned—on a thirty-six hour after the accident(?) occurred. The doctor visited the patient and found that little or no care had been taken of the wounded man, and the blood and matter which had oozed from the crushed limb had been allowed to collect until almost putrid. Although the stench was disgusting in the extreme the humane doctor made the patient as comfortable as possible, and did everything in his power to alleviate the great suffering of Chodelot. The bed on which the patient lay is described by the doctor as being entirely unsuited to the purpose, the mattress being of straw, and the pillow merely a bagful of rags. Seeing a comforter lying in the room unused, Dr. Dawson proceeded to place it under the dying man, and also procured a soft pillow. To both Mrs. Nadon objected, saying that she was "afraid they would be spoiled."

The doctor was obdurate, however, and seizing the articles in dispute forcibly did as he wished with them. He also insisted on having a nurse, and after a great deal of argument his request was grudgingly complied with. The next day the amputation of the arm was performed, and after lingering in great suffering until yesterday afternoon, Chodelot died. To-morrow he will be buried, and the next day the world will be sadder than such a man as Godfrey Chodelot ever lived.

The case has excited considerable comment in the community, many theories being promulgated concerning it, and many statements made evidently not founded on fact, but the above statement, given by the GAZETTE without prejudice to the living or favor to the dead, can be relied upon as being substantially correct in every respect. Having performed its duty, the GAZETTE now rests the case and submits it to a righteous authority, confident that a righteous decision will be rendered by the Supreme Judge of the Universe on the day of resurrection.

He Made a Mistake.

A one-armed tramp invaded the Castle Hogan on Plaza street last evening, and seeing a fine picture of Robert Emmet, the Irish patriot, hanging on the wall, proceeded to demolish it in a true frontier style. He succeeded in wrecking it before the patriotic sons of Erin present could seize him, but when they did, the scene resembled a fight at the historic Donnybrook fair. Finally, the cause of the disturbance was ejected and soon after felt in the hands of a peace officer who escorted him to the county jail. When washed his face presented a fearful appearance, and it will probably be some time before he will again have an inclination to insult the patriotism of "howid" Irish lads.

A TEACHER TALKS.

A Sensible and Convincing Letter from a Nevada Educator.

WADSWORTH, March 15, 1888.

EDITOR GAZETTE—From time to time I receive letters from different teachers in the State, and one and all say they are preparing work for the Nevada exhibition. This is as it should be, and shows the proper spirit. From observation, experience, correspondence and talk, I firmly believe that eastern teachers think that their Nevada brethren are far behind the times in educational work of all kinds. If this idea prevails in the east, and I am sure it does in a very great measure, it is certainly the duty of every Nevada teacher to lend his aid to help eradicate it from the minds of those who will visit the California Institute in July next. President LeRoy D. Brown, Chairman of the Exhibit Committee, has endeavored by every means in his power to arouse an interest in the work, but it rests principally with the main body of teachers to bring the matter to a successful issue. It is not only the duty of every teacher to make preparation and show result, but it is also the duty of every Superintendent, School Trustee and parent to contribute a generous share of good will and help to the teacher. Of this matter more anon.
